

Visitor visa (subclass 600)

Tourist stream application checklist – Cambodia

Applicant Name	
Passport Number	
Phone Number	
Email Address	

- Applying online via ImmiAccount is the fastest, most efficient way to apply.
- If you are unable to lodge your application online, you can lodge your completed paper application at an Australian Visa Application Centre (AVAC).

How to use the checklist

1. Before you sign your visa application form, use this checklist to make sure that you have included all relevant documentation.
2. When you are satisfied that you have correctly completed your visa application form and all of the relevant documentation is included, you should sign and date your visa application form.

If you are applying online: Scan the original of each document in colour. If a document has multiple pages, include all pages in one file instead of separate files. All supporting documents should be a clear, high quality scan (at least 300dpi resolution, up to 2MB size). If you attach low quality scanned documents, processing of your application may be delayed.

If you are applying at an AVAC: Provide colour copies of original documents.

Important:

- Please be aware that the decision on your visa application may be decided on the information and documentation that you include at the time of lodgement. It is in your interest to provide as much information as possible with your application.
- Documents not in English must be accompanied by an accredited English translation or translated by a registered business in Cambodia providing translation services.
- Please provide an email address on the application form as this is the easiest way to communicate with you.
