MEDIA RELEASE

**CAMBODIA RAILWAY REHABILITATION PROJECT AND
ADB COMPLIANCE REVIEW**

Australia welcomes the report of the Asian Development Bank's Compliance Review Panel as a constructive assessment of the needs of families affected by the Cambodia Railway Rehabilitation Project.

The ADB Board met to consider the Compliance Review Panel's report and recommendations on the Cambodia Railway Rehabilitation Project on 31 January.

The Board agreed to bring the project into full compliance with its safeguard policies, and the Australian Government supports the Board's decision.

Australia has gone to great lengths to support people affected by the Cambodia Railway Rehabilitation Project. We look forward to working constructively with all partners responsible for implementation of the report's recommendations.
